The Getac 9213 durable notebook is designed to survive all types of travel-related mishandlings. To prevent damage from accidents, the 9213 passed the 45 cm operating drop test, the keyboard and button water resistant test, and the 120 kg stress test. As a business notebook powered by the latest ultra low voltage 45nm Intel® Core™ 2 Duo processor (Penryn), this 1.7 kg unit is relatively light-weight and possesses outstanding battery life. When it comes to data security, the 9213 provides a combined advanced solution of a TPM security module, a fingerprint scanner, and a shock-protected HDD. The excellent multiple communication functions are travelers' favorite, and the 9213 combines Intel a/g/n WLAN, Bluetooth 2.1 with an optional 3.75G HSUPA module. Furthermore, several handy features like an 1.3M pixels webcam as well as 2 digital mic arrays are also built into the unit.
